FY 15 Amended SOW for Westlake DW1492380501.pdf

Alyse,

Per MCE's FOIA, item 1 the USGS/EPA IAG. I went through SDMS and located the original one and an older email from Audrey to Dan stating that the IAG and scope were releasable to MCE in 2013 (see attached email for reference). I have also attached the amended IAG for your review. Compared them line by line by work scope. Other than minor changes allowing USGS to collect samples and some reporting language and cost, nothing else has changed. Note did not find this document in SDMS but was able to obtain copy from Ina Square (IAG PM). Looks releasable to me but doing my due diligence.

Item 2, Thermal IB report is already posted on our website and our letter will simply direct Mr. Smith to that link.

Let me know if I have missed anything and will get this FOIA routed through Pat to Emily with IAG amendment on CD-R.

Thanks,
